- a partnership with Centro Scuola Dante Alighieri (CESDA) and the English Montreal School Board to promote Italian language classes after school;
- attendance at the press conference for the Jennings Report on school elections:
  - the report stressed the importance of our community and our rights;
  - universal suffrage needs to be maintained;
  - there may be changes in how a Council is structured but a stand needs to be taken;
  - speak with Members of the National Assembly and advise that the rights of the English community are not up for negotiation;
- the enlargement of Franklin Hill Elementary school has received authorization from the Ministère de l’Éducation, de l’Enseignement supérieur et de la Recherche (MEESR). The school enlargement will allow for the accommodation of 700 students and it will have a soccer field.

4.2 Director General’s Report:

The Director General presented her monthly report highlighting:

- the provincial negotiations and upcoming strike action:
  - in order to facilitate communications with the school board stakeholders a button has been added on the Web page that will provide quick access to any information pertaining to the negotiations and any upcoming strike action. Facebook will also have the same information posted;
  - at this time the school board continues to have good communications with each of its unions;
  - the Council will be updated as information is received concerning the negotiations and any potential strike action;
- the smooth start to the 2015-2016 school year;
- the work being done to resolve any issues concerning the two new high schools in Laval;
- the activities concerning the schools: the 50th Anniversary celebrations for John F. Kennedy Elementary School, Rosemère High School’s involvement with STEM (Science, Technology, Engineering and Math) education as it relates to the school board’s Strategic Plan and the goals set by the MEESR, and the initiative of Laurentia Elementary School with its Hobby Day, which allows students to find their own voice as they speak about their respective hobby or a theme;
- a more detailed report is in the meeting package.
In response to questions and concerns, the Director General, with the assistance of the Directorate team, noted:

- the Conseil du trésor has given new directives concerning the management of supply contracts, services and construction work in the public sector so that there is more transparency. Section 4 of the directive indicates that in order to promote more neutrality within the selection committee, the following persons cannot be a member of the said selection committee: the project manager, the head of the organization, a member of its board of directors or commissioner of the concerned school board. A Selection Committee will now be made up of: 1 member of the Directorate, 1 external member, 1 member of Material Resources and 1 member of Material Resources acting as Secretary of the Selection Committee;

- International Student Program:
  - the enrollment can be found in the financials presented at the Corporate Committee on 2015-09-16;
  - there is a specific budget line for the program;
  - if international students in the youth sector are declared as part of the enrollment, the school board must return 90% of the funding received because these student pay a fee to attend. In 2014-2015, the school board declared 12 international students so it had to refund the MEESR approximately $57,000;
  - Vocational Training is self-financed;
  - Financial Resources is using the most accurate numbers available at this time to provide the current revenues and expenses of the International Student Program and it must be remembered that the school board is just starting this program but a deficit is not anticipated;
  - mechanisms are in place to ensure that international students pay their full fees to the school board;
  - revenues for self-financing activities appear in the current school year figures;
  - the figures for the International Summer Program will be a part of the 2015-2016 school year report;
  - there are expenses indicated under Material Resources for the International Summer Program and the majority of the expenses were made so that the necessary items needed to run the program were in place. It must be noted that the investment in the Arundel Nature & Science Centre (ANSC) benefits all students of the Sir Wilfrid Laurier School Board;
  - revenues cannot be generated in the youth sector only in the Vocational Training sector with respect to international students;
  - the fees for international students in the youth sector are based on the amount of time they will be spending at the Sir Wilfrid Laurier School Board and these fees are paid upfront prior to starting school;
  - the fees for international students in the Vocational Training sector are also to be paid up front prior to beginning a program and, if they are not paid in full by the time the program concludes, a diploma is not issued;
  - the audited financial statement will provide a lot of the answers concerning the International Student Program and this will be presented at the October Corporate Committee;
- cautioned that there may be a small deficit once the audit is completed.

6.1.2 International Travel:

The Director General indicated that the following resolution is to allow the Chair to travel to foreign countries to represent the Sir Wilfrid Laurier School Board, to establish partnerships, increase its visibility and promote the Sir Wilfrid Laurier School Board International Program to foreign educational organizations.
She went on to recommend that a member of the management team be considered for travel to assist the Chair.

**WHEREAS** the Sir Wilfrid Laurier School Board (SWLSB) established an International Student Program for students of foreign countries;

**WHEREAS** the SWLSB wishes to continue the development of the International Student program and increase its visibility in the international market;

**WHEREAS** establishing partnerships with foreign educational organizations is an essential part for the growth of the International Student Program;

**WHEREAS** the SWLSB believes that these partnerships can greatly benefit our school board;

**WHEREAS** the development of these partnerships could require the Chair, as official spokesperson of the SWLSB and senior executives of the school board to travel to foreign countries to represent the school board in negotiations for such ententes with potential partners;

Parent Commissioner Sergio di Marco MOVED THAT the Council of Commissioners of the Sir Wilfrid Laurier School Board authorize the Chair of the school board to travel to foreign countries to represent the Sir Wilfrid Laurier School Board, to establish partnerships, increase its visibility and promote the Sir Wilfrid Laurier School Board International Program to foreign educational organizations.

Parent Commissioner Sergio Di Marco accepted the recommendation to include a member of the Management team.

In response to questions and concerns expressed by members of the Council, the Director General explained that:

- With the ongoing budget constraints and, in order not to have a deficit budget, the school board needs to find alternate sources of revenue;
- the budget for a trip of this type would be in the neighbourhood of $10,000 per person with the cost being covered through the contracts signed while travelling;
- the risk undertaken when travelling to establish partnerships, increase its visibility and promote the Sir Wilfrid Laurier School Board International Program to foreign educational organizations, is low;
- in order to gain contracts in many foreign countries it is necessary for the most senior persons in an organization to travel as many will not enter into any agreement without having formally met the head of the organization;
- the reason behind this trip is that the school board has been invited to attend a conference in China and the trip will also allow for new partnerships to be established which will generate the much needed alternate source of revenue;
- would ideally like to generate in the neighbourhood of $400,000 which would help prevent a school board deficit;
- the revenue made from the youth sector is minimal but the potential of revenue from the Vocational Training sector is great given that the average cost for an international student in Vocational Training is $14,000, which covers the cost of one trip;
- the numbers for the International Student program have been provided but they can be re-issued;

Commissioner Dean Dugas left the meeting. **TIME: 21:56 hours**

### 6.1.3 International Student Partnership - Thailand:

The Director General advised the Council that this project was brought to the attention of the Corporate Committee for discussion and that at this time the request is not for travel but to explore the possibility of partnering with a school in Thailand to create an international school within its school. This school would also like to be able to offer the Québec curriculum with the objective of creating an exchange program. This would allow for students to study part time at the Sir Wilfrid Laurier School Board and the rest of the time in Thailand to complete a school year.

The Sir Wilfrid Laurier School Board has approached the Ministère de l’Éducation, de l’Enseignement supérieur et de la Recherche (MEESR), looking for guidance and they have expressed an interest although it does not have guidelines for this type of venture. There are several things that need to be taken into account by all parties in order to proceed:

- the school in Thailand, in order to open an International school abroad, needs to be affiliated with an institution in Quebec who is authorized to sanction learning, such as the Sir Wilfrid Laurier School Board (SWL);
- SWL does not have an international school abroad;
- the fact that Quebec has no international school abroad;
- the fact that the MEESR determines approval for such a project; and
- the fact that the decision occurs at the political level, from Minister to Minister of the respective countries.

A resolution is required by the school in Thailand in order to bring it to its government.
The Council entered into discussion and the Director General answered questions and concerns, as follows:

- there is no travel at this time, this resolution is to open the exploration of the potential of the partnership and the logistics behind it;
- the Ministère de l’Éducation, de l’Enseignement supérieur et de la Recherche (MEESR) owns the Québec curriculum and if these potential students are to be sanctioned, the Ministry would have to be involved. The two ministries would have to meet in order for an agreement to be established;
- the purpose of the resolution is to allow the Director General to sign a non-binding document of good will;
- LEARN is not involved in this dossier.

WHEREAS the Sir Wilfrid Laurier School Board has been approached by the Thewphaingarm School, a private school located in Bangkok, Thailand, to develop an International Student Partnership;

WHEREAS the Thewphaingarm School is seeking a partnership with a Canadian school to create an International School within their school;

WHEREAS this potential International School would offer the Québec curriculum in Thailand and develop an exchange program for students whereby they would study part of their school year at the Sir Wilfrid Laurier School Board and part in Thailand under the same curriculum;

WHEREAS the Sir Wilfrid Laurier School Board has been in contact with the Ministère de l’Éducation, de l’Enseignement supérieur et de la Recherche concerning this proposed partnership and the Ministry is open to the idea;

WHEREAS it is understood that the Sir Wilfrid Laurier School Board requires the authorization of the Ministère de l’Éducation, de l’Enseignement supérieur et de la Recherche, as it owns the rights to the curriculum, in order to enter into a partnership with the Thewphaingarm School;

WHEREAS the Ministère de l’Éducation, de l’Enseignement supérieur et de la Recherche will need to confer with the Minister of Education for Thailand on this proposed partnership;

WHEREAS this proposed partnership is of a political nature therefore requiring the support of the Council of Commissioners;

Commissioner Anne McMullon MOVED THAT, on the recommendation of the Corporate Committee, the Council of Commissioners of the Sir Wilfrid Laurier School Board mandate the Director General to explore the possibility of the Québec curriculum being offered at the Thewphaingarm School, Bangkok, Thailand.
